

To Whom It May Concern

Thank you for your recent enquiry with regards to the REACH status of products which you buy from Cooper MEDC. Our records show that you have purchased the products on the attached list, so this letter has been completed for those part numbers only.

MEDC have reviewed its products for compliance with the EU Regulation 1907/2006, otherwise known as the REACH Regulation. In respect of Substances of Very High Concern (SVHC) as defined in Article 33 and included in Annex XVII, which currently number 169 Substances as of June 2016, MEDC is currently consulting with its suppliers about possible inclusion of SVHC above the reportable limit in all products.

All responses received to date show that none are included in these products above the reportable limit. Should we receive information that demonstrates inclusion above the reportable limit we will inform you promptly as required under the REACH Regulation.

Thank you for your enquiry.

For and on behalf of Cooper MEDC

Jill Kelly
Quality Manager
